Headquartered in Alpharetta, Ga., Safe Systems is a privately held, leading national provider of compliance-centric IT solutions exclusively to financial institutions.

Safe Systems was founded in 1993 and has become one of the fastest growing IT solutions provider in the country. Leveraging their relationships with top financial industry vendors allows them to provide the best network solutions available. Safe Systems' annual double-digit new client and revenue growth, as well as its 99 percent retention and renewal rate solidifies its position in the industry. High levels of customer service, expertise of the financial industry and experienced, dedicated compliance resources are among the factors that differentiate Safe Systems from its competitors. As a result, clients are able to reduce operating costs, increase productivity and exceed regulatory requirements.

The company has worked with more than 500 financial institutions in 40 states and manages more than 20,000 network devices. Its services include comprehensive network support packages featuring a help desk, remote support capabilities and on-site services to expedite problem solving; disaster recovery that guarantees business interruptions will be recovered in less than one day; employee training services; and reviews, evaluations and assessments to comply with FFIEC regulations. An award-winning technology partner for community financial institutions, Safe Systems has SAS 70 certified solutions with fully redundant data centers and has been the recipient of Bank News 2010 Innovative Solutions Award, CRN's Top 40 Most Innovative MSPs and a 2010 Inc. 5000 Honoree.
