Overview

IT and Security Services for Community Banks and Credit Unions

Founded in 1993, Safe Systems® is an award-winning IT service provider proudly serving community banks and credit unions. By combining our knowledge of regulatory compliance, a proactive approach to security, and a passion for technology, we strive to bring our customers great value and peace of mind. We believe every financial institution, regardless of size, should be able to leverage the best technology to serve their community. Our services include network management, cloud infrastructure, secure hosted email, business continuity planning and disaster recovery, cyber risk reporting, information security and virtual ISO, endpoint protection, next-gen firewall, and IT and compliance training.

High levels of customer service, expertise in the financial industry and experienced, dedicated IT, security, and compliance resources are among the factors that differentiate Safe Systems from its competitors. Safe Systems has been the recipient of numerous industry awards including the Bank News Innovative Solutions Award, CRN's Top 40 Most Innovative MSPs, TAG FinTech Advance Award, Inc. 5000 Honoree, Atlanta Business Chronicle list of Georgia's 20 Largest FinTech Companies, CRN MSP 500, Ingram Micro SMB Channel Partner 500 List, The Atlanta Journal Constitution Top Workplaces, and Insperity Community Heroes.

Abridged Overview

Founded in 1993, Safe Systems provides IT, compliance and security services exclusively for community banks and credit unions. We believe that every financial institution, regardless of size, should be able to leverage the best technology to serve their community. Our cost-effective services are designed to significantly decrease IT costs, increase performance, and improve compliance posture.
